Call for Submission of Carrot Cultivars for the 40th International Carrot Conference

We welcome submission of carrot cultivars to include in the Carrot Cultivar Demonstration Plots at the 40th International Carrot Conference. The conference will be held on 5-6 October 2020 at the Washington State University Mount Vernon Northwestern Washington Research & Extension Center in Mount Vernon, WA, USA. The field tour associated with the conference on October 6th will include a visit to the Carrot Cultivar Demonstration Plots located at the WSU Mount Vernon NWREC, as well as a carrot cavity spot nursery and local agricultural operations (farms, seed companies, and other attractions). The 40th ICC Organizing Committee is eager to have plots in the cultivar trial represent diverse carrot types and varieties. Please submit entries for the demonstration plots!

Entries should be submitted into one of the following groups (we can accept up to 6 cultivars in each group per company or individual):

- Imperator cellos
- Imperator cut ‘n peel
- Colored carrots
- Processing types
- Nantes types
- Breeding populations/inbred lines
- Others

We will have a conventional and an organic cultivar demonstration trial. Please indicate if you want your cultivars planted in the conventional or organic trial.

Those interested in participating should send 15 g of raw (non-pelleted) seed that can be treated or not for each carrot entry to:

Lindsey du Toit
WSU Mount Vernon NWREC
16650 State Route 536
Mount Vernon, WA 98273-4768
USA
Tel: +1-360-848-6140

Entries must be received by March 6th of 2020 in order to be included in the plots. Questions can be directed to Lindsey du Toit at 360-848-6140 or dutoit@wsu.edu, or Tim Waters at 509-545-3511 or twaters@wsu.edu. Details regarding the conference can be found at www.internationalcarrots.org. We look forward to your participation and seeing you at the conference in October 2020.
